Data Scientist Pledge

S2106632   QiyiLiu

I swear to fulfill this oath to the best of my ability and judgment:

I promise that I will start from myself, abide by relevant national laws and regulations and strictly demand myself.

I promise that I will remember that I am a member of society and I have specific responsibilities to society. Never use technology to infringe upon the legitimate rights and interests of others, do not use technology to obtain illegitimate interests, and strive to bring benefits to the people affected by our technology.

I promise that all my data science work will fully respect and safeguard human rights and other rights to life. Considering that my work may involve human life and health, property safety and the justice of human society, I will respect the needs of customers. In the face of ethical or moral disputes, I will choose to terminate my work.

May I abide by my oath and make modest contributions to the development of the world.
